EQUIPPED AND EMPOWERED

FOR TEENS

Adoptions of Indiana is pleased to be offering a summer session of Equipped and Empowered. E² is for students in high school who joined their family through adoption.

As part of normal and healthy development, all teens grapple with their identity. Adopted teens face additional challenges in reconciling who they are with the uncertainties in their history. This group offers guidance as we empower and equip teens to handle the issues and questions that arise from their personal adoption story while they learn who they are as individuals.

Led by Carissa Maddox MS, students will use art, meaningful conversations, reflection, and a variety of researched based activities, to discover the truth about healthy identity formation.
